BAUMANN Medical:

QUALITY, TECHNOLOGY AND PARTNERSHIP

BAUMANN GROUP

For more than 125 years, the BAUMANN Group has stood for Swiss precision and quality. Take advantage of the experience of a global manufacturer of springs and stampings. The family-run company, in its fifth generation of owner management, has ten production locations all over the world with over 1'400 employees and sells high-tech products for selected industries such as automotive, electrical and medical. Integrated thinking and technological know-how transfer between locations is always the focus of our actions. All BAUMANN companies are certified ISO 9001, ISO/TS 16949 and ISO 14001. The Swiss headquarters is additionally certified ISO 13485.

BAUMANN MEDICAL

Our products are the core of your applications. As a global operating division BAUMANN Medical manufactures high-quality springs and stampings for your demanding applications in separate production areas in Europe, USA and Asia. Our dedicated team has comprehensive skills to optimally support you in every product phase with integrated thinking and actions. Thanks to our in-house machine manufacturer BAMATEC, we design customised quality and production processes. From development support to production to the packaging solution. Together with you we develop innovative products for durable and successful applications.

MEDICAL MINDSET

We employ the same strict quality management processes at all our locations and guarantee consistency and stability thanks to our systematically trained employees.
